Subject: Amarillo, TX residential

phosgene gas incident - OSC Enders and START contractor deployed

4 people are dead and up to an additional 6 people have been exposed to what is believed to have been phosgene gas. Reports indicate that a resident mixed aluminum phosphide with water which produced phosgene gas. TCEQ notified EPA of the incident and has requested assistance. The incident is located in Amarillo, TX. EPA has dispatched OSC Enders and START contractor.
